7th Asia - Pacific Symposium on Radiochemistry 2022

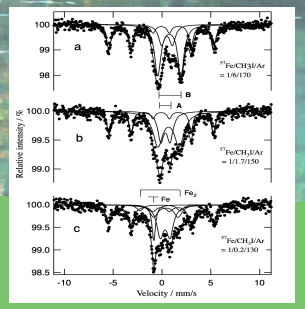

Koriyama, Fukushima

APSORC22 JAPAN

Tentatively Planned during September 11（Sun）- 16（Fri）Koriyama, Fukushima, Japan

113	114	115	116	117	118
Nh	Fl	Mc	Lv	Ts	Og
nihonium	flerovium	moscovium	livermorium	tennessine	oganesson

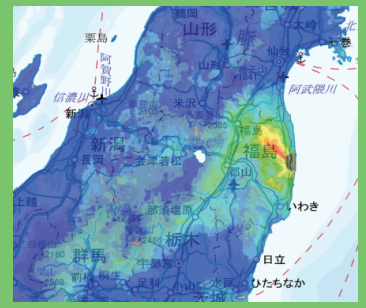

Scope:

- 11 years from Fukushima NPP accident
- Nihonium（Nh）and trans - U elements
- Nuclear chemistry
- Radioanalytical chemistry
- Actinide chemistry
- Nuclear probe in chemistry
- Activation analysis
- Nuclear forensics
- Radiopharmaceutical chemistry
- Environmental radiochemistry and other related topics

Site tour:

- Visit to Fukushima Dai-ichi Nuclear Power Station
