

# Journal of Nuclear and Radiochemical Sciences

Vol.3, No.2, December 28, 2002

ISSN: 1345-4749

The International Journal Published  
by the Japan Society of Nuclear and  
Radiochemical Sciences

©2002 The Japan Society of Nuclear and  
Radiochemical Sciences

## Editorial Board

E-mail [jnrs.editor@radiochem.org](mailto:jnrs.editor@radiochem.org)

### Editor-in-Chief

Hisaaki Kudo *Department of Chemistry, Faculty  
of Science, Niigata University, Niigata 950-2181,  
Japan*

E-mail [hkudo@sc.niigata-u.ac.jp](mailto:hkudo@sc.niigata-u.ac.jp)  
Fax +81-25-262-6171

### Editors

Takaumi Kimura *Japan Atomic Energy Research  
Institute, JAERI*

Kazuyoshi Masumoto *High Energy Accelerator  
Research Organization, KEK*

Yoshitaka Minai *Musashi University*

Toshiaki Mitsugashira *Tohoku University*

Taichi Miura *High Energy Accelerator Research  
Organization, KEK*

Takashi Nakanishi *Kanazawa University*

Tadashi Saito *Osaka University*

Yuko Saito *Aoyama Gakuin University*

## Secretary of the Japan Society of Nuclear and Radiochemical Sciences

Zenko Yoshida *Japan Atomic Energy Research  
Institute, JAERI, 2-4 Shirakata Shirane, Tokai,  
Ibaraki 319-1195, Japan*

E-mail [office@radiochem.org](mailto:office@radiochem.org)  
Fax +81-29-282-6723

## CONTENTS

### Reviews

#### Positron Age-Momentum-Correlation (AMOC) Measurements on Organic Liquids

Petra Castellaz, Andreas Siegle, and Hermann Stoll R1

### Accounts

#### Thermal and Optical Switching of Iron(III) Complexes

Shinya Hayami, Osamu Sato, Katsuya Inoue,  
Yasuaki Einaga, and Yonezo Maeda A1

#### Recoil Studies of Photonuclear Reactions at Intermediate Energies

Hiromitsu Haba A11

### Articles

#### Global Fallout Technetium-99 Distribution and Behavior in Japanese Soils

K. Tagami and S. Uchida 1

#### Most Probable Charge of Fission Products in Proton-Induced Fission of $^{238}\text{U}$ and $^{232}\text{Th}$

D. Kaji, S. Goto, M. Fujita, T. Shinozuka,  
M. Fujioka, and H. Kudo 7
